

Projected end-of-century genetic diversity per GCM — California Coast

SSP5-8.5 2081-2100 | within-species diversity, ensemble mean and between-GCM spread

Projected diversity — model-uncertainty map
(color = ensemble mean; opacity = certainty)

Projected diversity by latitude
(present vs 2100, inter-model band)

Projection uncertainty by latitude
(disagreement among the 5 GCMs)
